

Mobiles

Add some aerial delight

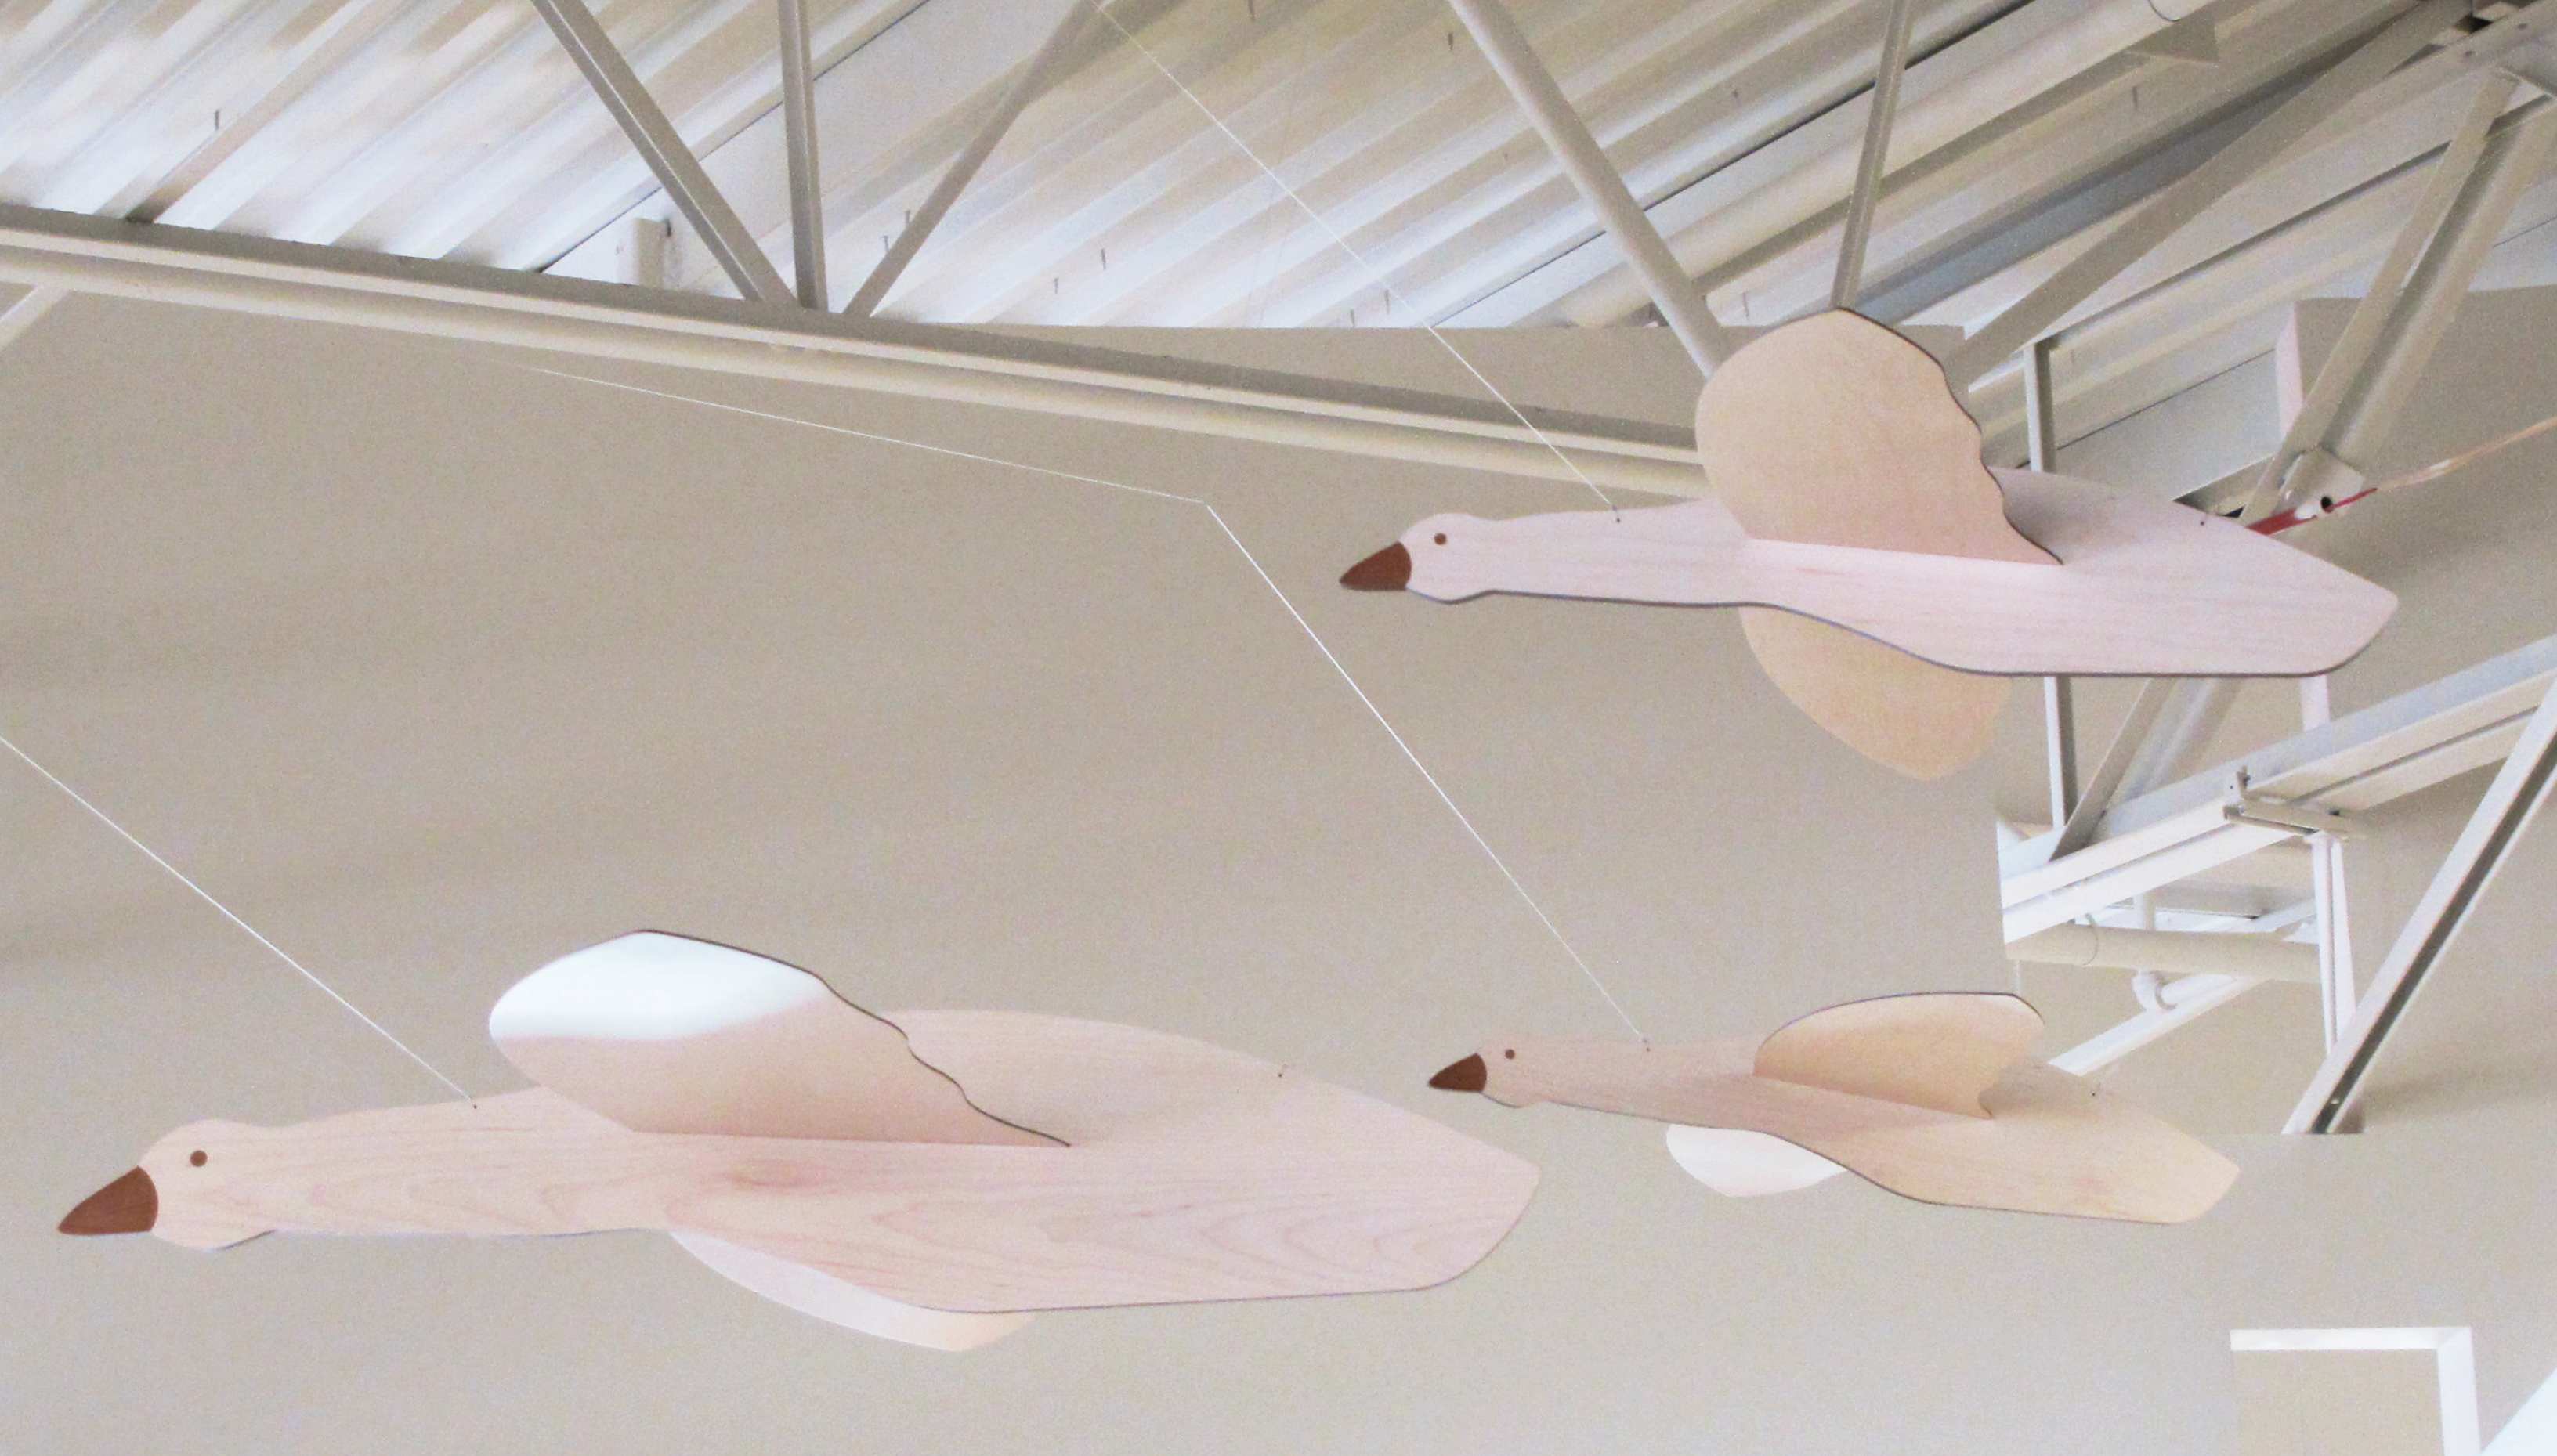

Color the Air!

Butterflies, birds and other elements can be seen flying above the furniture of any setting with TMC's suspended Mobiles. Create an environment above the tables and chairs or even lobbies.

Overhead here incorporates Leaf Mobiles with Tree Appliques.

Migration Wayfinding

Goose Mobiles

A Fairytale Flourish

For Fairytale charm at the Indian Creek Library in Olathe, Kansas we added Dream Clouds, Moon & Stars Mobiles above the castle to provide delight as well as a wayfinding element to our LearnPLAY designed and fabricated space.

A photograph of a modern interior space featuring a wooden ceiling with exposed beams. Several seagull-shaped mobiles, made of light-colored wood or paper, are suspended from the ceiling. The mobiles are in various flying poses, some facing left and some facing right. The lighting is warm, with recessed ceiling lights visible. The overall aesthetic is clean and natural.

Follow the Flock!
