

**TMC Furniture Inc.**, in cooperation with **Forbo**, announces the EnShell Stacking Chair. Combining the warmth and beauty of wood with Forbo Linoleum on the shell's face, EnShell makes a stylishly cool statement. Linoleum, an environmentally friendly, renewable, non-toxic material, is extremely durable and easy to clean. A perfect choice for healthcare and cafeteria applications, the EnShell Chair is available in a full range of Forbo colors, three back shapes and an optional handle cut-out (pictured).

#### Con-Tech Lighting's

Eco-Technology offers lighting solutions that meet customer needs while reducing the consumption of energy and resources—lessening the impact on our environment. Con-Tech realizes that lighting can account for up to 50 percent of a building's total energy demand and that making more efficient lighting fixtures will have a big impact on helping to protect the environment and reduce energy bills.
