DREME from Global Furniture Group converts from a seat for several people to a bench for sleeping. The unit has a long and narrow design to fit into smaller spaces and below windowpanes and comes with a high-density Ultracell bio foam cushion and heavy-duty wheels. Optional moisture barrier and sealed-seam solutions are available for infection control.

ACCESS MOBILE DESK by Peter Pepper Products provides a work surface and

storage unit in one. A powder-coated steel pedestal has two sliding doors to access the storage area, and the 3-D laminate work surface rotates around the pedestal to create multiple configurations. A power/USB electric module with a 12-foot cord and chart pocket are standard.
