

PLAY Boxes

TMC LearnPLAY 

Open PLAY!

Discovery Boxes

Our Discovery Box is an open-ended PLAY box with all kinds of thematic wood paddle sets. Pictured here, it is shown as a Discovery Box where a child is creating her own barnyard scene. The connecting bin provides a storage place for the paddles as well as relevant books.

Caregivers who participate in the play with their little ones can point and talk about everything that they see and touch, making a meaningful connection between the word and the object itself. Children learn so much by building too! Here is a perfect place to do just that.

This becomes a dynamic place, with many opportunities, to change content and discover! Mount it to a Learning Corner, Wall Mural or as a stand-alone piece.

Let the DISCOVERIES BEGIN!

Organic and tactile, made of natural material - WOOD

Teachable moments
Learn about tree seedlings.

Building a Story—
Going on an adventure

Where Are They Going?
Designing the neighborhood.
Where will the Market go?

Explore the Water

This box has a blue interior to emulate water. The paddle sets relate to what one might find in the open waters. Available with or without a background panel. Pictured below is our standard offering.

Ocean Paddles

Boat Paddles

Window Boxes

Consider adding a window planting box on our House structure (pictured right) or our Potting Shed (above). Change out the sets and content. Simple, tactile and lots of fun for children to plant and explore.
