The Potting Shed

# The Potting Shed

We all know how exciting forts can be. This Potting Shed was inspired with just that in mind. Children can imagine their own world and transform it into a playhouse—a puppet stage, a store, a post office or a quiet reading nook. An optional mat is also available (as pictured). See following pages for more accessory options.

# Change the topper and turn it into a Bakery, School or Post Office

Change the toppers to create a new space for children to PLAY! Add relevant elements: letters, stamps, rulers, cash register, cookie cutters, rolling pins, puzzles and more.

# Make your own shed.

For the Indian Creek Library in Olathe, Kansas the library requested a blacksmith shop for their shed iteration. We added facade detailing and a golden finish color on the roof to resemble hay. The library selected our Workbench and Magnetic Board and interchangeable Learning Panels. Pictured is a custom Learning Panel using Olathe's Mahaffie Stagecoach and Farm Historical Site as inspiration. The rear window is perfect for a puppet show or a place to sell the farm or blacksmith wares. Please visit our website to see the full Indian Creek Case Study.

# Add-Ons + Accessories

Chicken Coop with Hen Appliqué

The Chicken Coop offers an opportunity to store and count eggs. Add your own eggs or little chicks for more PLAY!

Flower Box for books

These Flower Boxes are perfect for storing books about plants, farming and the like. Book proximity is an important element for early learning spaces. Flower boxes mount to the side of the Potting Shed.

Learning Panels

To promote early literacy, our Learning Panels are designed to spark conversations and curiosity in young children. Many categories to choose from. For a complete listing please visit our website.
