Book Bins

Book Bins

Our Book Bins for children blend the function of easy access storage with display. Book Bins no longer need to be purely functional. Add zest and imagery to the old standby. Numerous sizes, single or double-faced. Easily adaptable for various media storage; optional casters for mobility. Pictured right is our Giraffe perimeter on a custom book bin.

Linear Book Bin

Pictured with our Galaxy Sun cut-out on the front face of the Linear Book Bin.

Linear Book Bin

Rolling Book Browsers

Our rolling Book Browsers are perfect for little patrons. From board books to storybooks these make for flexible and easy storage or display. Pictured is the Ship Perimeter Browser and our Little Book Truck. For sizes please refer to our Library Price List.

Custom Book Bins

Custom Book Bins

We can also make custom book bins to fit your space and needs. Pictured here for the Nashville Public Library they specified our Giraffe Perimeter but requested we illustrate an Elephant and Camel Perimeter to create a wonderful way to draw the children to the book section. The library also requested drawer storage at the bottom of book bins and acrylic holders that allows for changing book location content.

Custom Book Bins

Pictured are modified mobile books bins for storybooks. For over-sized book storage (above), we made open shelves to accommodate these large books. Our cut-outs and wood finish colors add a warm and bright touch to the interior.

Custom Book Bins

Here is another custom unit that incorporates book storage on one side and on the other side, a place to sit at the computer. Our Dinosaur cut-out on the bookcase and Lorca Child Chair created visual continuity. This unit illustrates our capability to fabricate for individual needs in a library.
