# Trees

**For public spaces**

We are strong believers that nature and the natural world is important to human experience. Our product designs are inspired by nature, and the material we use, namely wood for its source — trees, beautiful and living. Wood connects us to the natural landscape. We love trees; they hold a special place for us as designers and woodworkers. Here are a few examples ranging from standard to custom work we were commissioned.

### Canopy Tree

Sometimes interiors have necessary steel beams that interrupt the space. This is an attractive solution for such a dilemma. Pictured is a tree cladding a 10" x 10" beam. For other sized beam applications, please contact customer service. The beautiful wood canopy creates dappled light, adding an element of enchantment to any interior. The woodpecker detail offers an opportunity for bird watching too.

Base Dimension: 12.5" x 16"

Tree Height: 96"

Canopy Dimension approximately: 107" x 105"

**Grove Tree with bench**

Anchoring to the floor, incorporate the Grove Tree with soft seating with a squirrel or birdhouses. The Grove Trees are also available on our Learning Corner which includes a background panel for Learning Panels and other accessories. Can be configured as groupings at right angles.

Bench dimensions: 36" wide and 16" seat height.

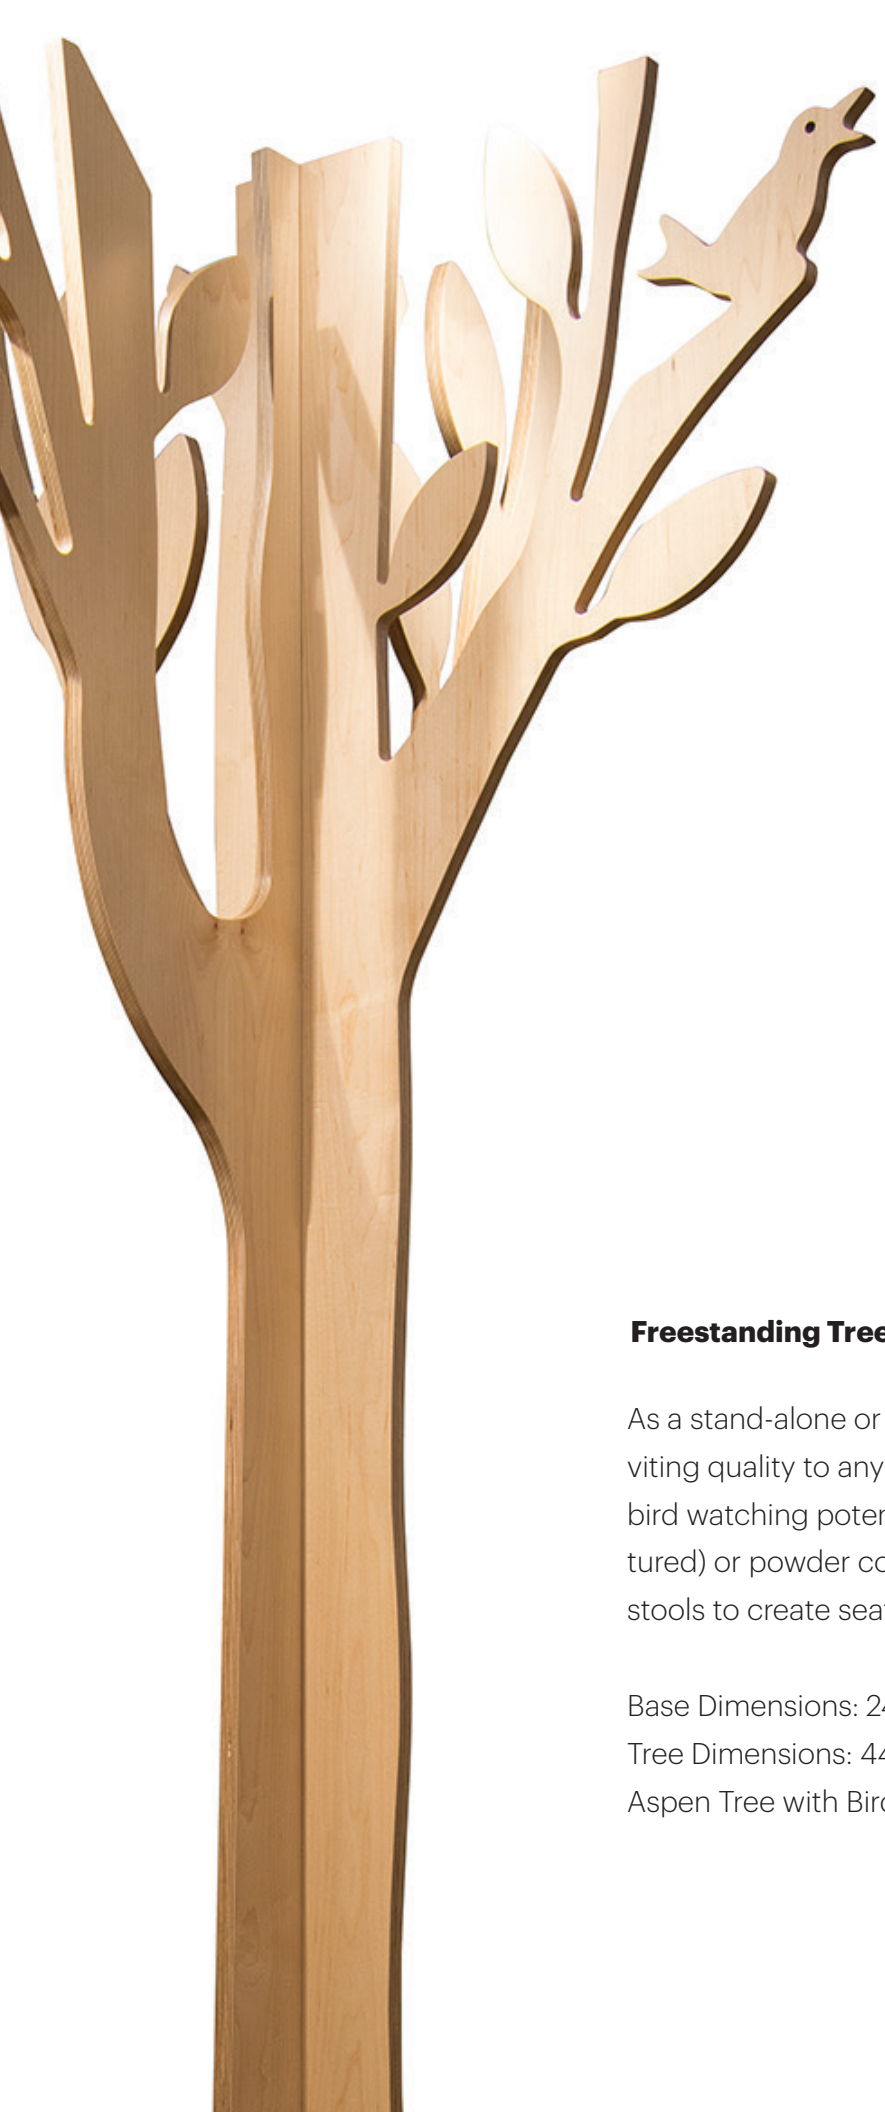

**Arbor Tree Ottoman**

Part of the Whistler Collection, this impressive ottoman would sit nicely in a number of spaces, combining visual interest with functionality.

Dimensions: 60" DIA x 16" seat height x 100" overall height

### **Freestanding Trees**

As a stand-alone or an enchanted forest, these 95" tall trees add an inviting quality to any space. A perched bird adds a bit of whimsicality and bird watching potential. The tree's base is available with a wood cap (pictured) or powder coated white metal. Consider adding TMC's benches or stools to create seating pods.

Base Dimensions: 24" DIA

Tree Dimensions: 44" wide x 95" overall height.

Aspen Tree with Bird is 101" overall high

**Pictured: Aspen, Topiary and Arbor Tree Collection**

A forest of Freestanding Trees integrate into the shelving end panels in the children's room.

### **Tree Quad Carrel**

Study under a canopy of trees. For work or display, this quad station is perfect for libraries, schools or other areas where children like to play. Pictured with integrated wire management option and Zetty Cube stools.

Standard Worksurface Dimension: 60" DIA and 84" DIA  
Overall height: 71" high

### **The Storybook Tree**

TMCKids' sculptural products enhance any setting with a wide variety of standard and custom pieces. Pictured here is our Storybook Tree with Ring Bench. The tree stands over seven feet tall. Add playful appliqués like birds, bugs, and leaves to create a customized nature themed setting.

Tree: 41.85"W x 45.52"D x 87.5" H

Bench: 54.7" DIA x 16" SH

**Detail of The Woodlands Wall Mural**

**Mama Bear and her 2 cubs**

Dimensions: 95" W x 95.5" H

**Grove Trees - Autumn**

Dimensions: 111.75" W x 95.5" H

### Storybook Wall Murals

Our Storybook Wall Murals with nature themes adds beautiful color, warmth and enchantment to a space. Pictured are murals that incorporate trees.

**Grove Tree with Fence Appliqué**

Dimensions: 119.75" W x 95" H

**Tree Appliqués**

Dimensional and tactile our Tree Appliqués are timeless in look. They brighten up any interior.

**Grove Tree Appliqués**

Dimensions: 111.25" W x 95" H

**Grove Tree Appliqués - InRelief**

Dimensions: 111.25" W x 95" H

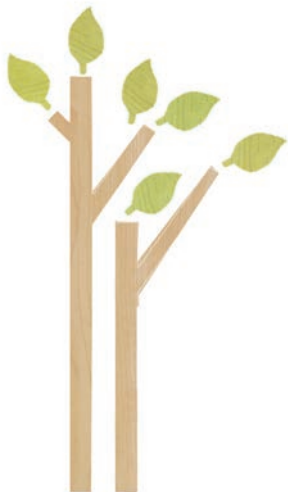

**Grove Tree with Fence - InRelief**

Dimensions: 119.75" W x 95" H

**Aspen Trees with Birdhouse Appliqués**

Dimensions: 73.5" W x 80" H

**Aspen Trees Appliqués**

Dimensions: 48.87" W x 85" H

**Tree Project @ Montclair Community Branch Library - Virginia**

Inspired by the library’s architectural peaks, a tree was designed with linear branches, mirroring the ceiling pitches, to offer a perfect anchor and focal point to designate the children’s area and information desk. The tree was constructed in solid maple with leaves finished in muted Spruce and brightly colored animal and bird flourishes. Sophisticated and timeless in design, that appeals both to child and adult.

## Tree Project @ North Royalton Branch Library - Ohio

A tall, articulate hallway defines the entrance to the Children’s area—a perfect space for a wooded canopy to evoke a walk in the woods. To create a sense of depth, thirteen-foot trees with a flurry of branches and leaves arched over the pathway below. On one side of the path through the entryway, an ImPrinted wall mural incorporates the beautiful illustration by Phyllis L. Tildes from her book *Eye Guess*. Rich and atmospheric, the illustration contains many animals for children to find as they move along the trail. Interactive elements, such as prompts like “Can You Find Me?” plaques, provide a starting point for a child’s exploration. Goose Mobiles fly over head creating a wayfinding to the Early Literacy area where a fox and squirrel are perched with trees and Learning Panels.

Early Literacy area with Trees, Learning Panels, Plover Table, Plover Chairs and Plover Stools.
